Regatta is known for its uniqueness & excellence. Regatta Technologies" is one of the fastest growing Multi-National organization spreading its presence around the globe providing a wide-range of on-demand and total IT solutions by highly-skilled professionals whose education, skills and experience are vetted and matched to your unique Technical needs, work environment and company requirements.

OUR MISSION

Targeting on the needs of customers we are focused to deliver the complete customer satisfaction while providing premium quality services. Our persistent endeavor is to incubate ideas and grow them into innovative products and solutions.

OUR VISION

Regatta shall deliver a complete package of ultimate destination with a multinational presence in which everything is professionally managed maximizing the technical advantage with cost leadership strategy thereby optimizing customer satisfaction and becoming the most trusted global leader in its field.

MOBILE GAME DEVELOPMENT

Gaming is one of the most popular activities. New technologies are arriving to make it possible to develop better and more powerful games that run in any mobile device.

Regatta Technologies provide comprehensive solutions to help you design, develop and market your game from first step to last. As one of the top game design and development company in the industry, our team of professional designers and developers have worked on numerous games for mobile platforms. From 2D platform to multi-player RPGs with VR integration to casual online, social and mobile games we've designed and developed a number of fun and exciting titles. We adapt to the latest tools and frameworks in the market and work with game engines like Unity3D, Cocos2d-x and Unreal as well as technologies like HTML5 and others to build high quality games

ANDROID/IOS & IOT MOBILE APP DEVELOPMENT

Give your business ideas a new place with mobile applications by Regatta Technologies. Mobile application development universe being one of the most innovative spaces in the industry today holds the place of interest for the future of business. We make mobile apps for multiple-platforms like Android, iOS and cross-platform solutions. Our team also provides IOT (Internet of things) customized mobile applications which combines sensor data with machine learning technologies & predictive analytics to create smart, productive & time saving user experience.

We hosts a vibrant team of programmers who have a rich experience in crafting such mobile apps that deliver customer requirements. Our well constituted and balanced team of developers, business development managers, quality analysts, marketing experts, etc can solve any complications that can arise from the inception to delivery stage of your mobile app.

E-COMMERCE SOLUTIONS

We have successfully delivered over 150 e-commerce projects across the globe with happy customers. Our technical staff is specialized and trained to provide state of the art technology. We provide solutions not only as per the requirements of the client but also by market and competitive analysis of the product.

24×7 support to take care of the project after the delivery and annual maintenance services. We are supporting numerous start-ups & working with multiple large enterprise customers

Keeping in mind increasing cybercrimes in the era of technology. Regatta pays great importance to cybersecurity for every e-commerce project to deliver the most secured and un-hackable solution to the customer. From mobile & web app development to digital marketing & post launch consulting, Our Ecommerce solutions includes everything for the success of the project.

DIGITAL MARKETING

Digital marketing services involve promoting your business online in every possible term and we at Regatta make sure that you never loose a single opportunity to advertize your business in digital market.

Our team of digital experts are specialized in getting the roots of the market through our services like Search Engine Optimization (SEO), Search Media Optimization (SMO), Google Adwords (PPC/PPM), Campaign designing, Micro-site developments, Email campaign, Creative designing, brochure/pamphlet designing, 3D logo designing and many more.

Digital Marketing is the way of targeting the customers digitally and we promote your business and help you generating the leads thereby increasing revenue.

CUSTOMIZED WEB DESIGN & DEVELOPMENT

Regatta is delivering personalized web development projects globally along with a wide range of web IT solutions. Our strategic initiatives have helped our clients across the globe as our teams of experts are striving for delivering the solutions according to their requirement and beyond the scope of the project.

Regatta is having a right expertise and ample of experience to take your business to next level. We are working on all kind of trending technologies & platforms like WordPress, Drupal, PHP, Joomla, Opencart, Magento, CMS and many more. Maintaining the website is also as important as getting it developed for which we always pay the priority.

Customized website helps to enhance your business in a market which will be very helpful for you to compete with the cut-throat competition with your competitors. We helps in proving uniqueness about your business and this creates the good expression in the mind of your visitors.

Cyber Security & IT Consulting

Preventions are always better than cure. But if in case it is not prevented then we need to take the countermeasures. We provide professional cybercrime investigation & cyber security solutions. Cybercrime is a use of technology which is intended to harm a personnel's property either physically or monetary or by any terms & we make sure in every possible way that the digital presence of your business remain protected.

At the same time we also provide consulting for IT projects to support your business making its strong presence over internet from its inception. Our IT management consultants are experienced professionals working since decades who are efficiently providing the solutions for not only IT but for the business growth of your company.
